

Gratitude Tutoring with Deborah Krueger

Get unstuck! Stop the downward cycle of your negative reactions and emotions. Find 'blessings in disguise' for your own 'sticky issues' through personal gratitude coaching. My Gratitude Tutoring empowers you with game-like tools and techniques you can use to create a more positive future. You will learn my simple easy-to-use HALO Process to build a positive vision for yourself and develop your 'emotional IQ.' We will then create personalized 'Gratitude Games' for you to play anytime, using the 'power of gratitude' to extend what you've learned. This can be applied in many areas of your life: burn-out, stress, sick-leave, health, work performance, relationships, and more.

What is the HALO Process?

H: *Halt* - stop thinking of yourself as a victim and that the world is against you.

A: *Accept* your situation as neither good nor bad. It's just where you are right now.

L: *Let go* of negative emotions that are holding you back. You can choose what happens next.

O: *Open* to the blessings in disguise. Start making your list!
